Under the Hood Journal

A Closer Look at Engine Oil: The Lifeblood of Your Vehicle

Engine oil is more than just a lubricant; it's the lifeblood of your vehicle's engine. Regular oil changes are crucial for preventative maintenance, ensuring that your engine runs smoothly and efficiently. Neglecting this simple yet vital service can lead to severe engine damage, potentially necessitating a complete engine replacement. This year, our pre apprentices will experience the monumental task of removing and reinstalling an engine—a highlight of our program that underscores the importance of routine maintenance.

Everyday Champion's Leadership Tune up: Lift Your Teammates ALWAYS

A core theme of this year's training is leadership, particularly the importance of supporting your teammates. Through the Everyday Champions Series, you will learn that true leadership is about lifting others and fostering strong, positive relationships within your team. Your role in helping each individual thrive is crucial to collective success. Remember, you can exercise leadership at all levels.

What Our Current Apprentices Are Up To

Our current apprentices have been hard at work, honing their skills and gaining valuable hands-on experience. They recently completed their first full month of employment with Hanover Auto Team. Bronx is pictured after removing a sunroof from a Tundra. We are incredibly proud of their progress and look forward to seeing their continued growth.

Special Visit from Congressman Smucker

We are honored to announce that Congressman Smucker will be visiting our facility to see firsthand the incredible work our apprentices are doing. This is a fantastic opportunity for our students to showcase their skills and discuss the importance of apprenticeships in the automotive industry. We look forward to the Congressman meeting with future and current Tech Pathways Apprentices.

Nathan's Triumph: Winner at the Annual Off-Road and Customs Car Show

We are thrilled to celebrate Nathan, one of our dedicated apprentices, who recently won a class trophy at our annual Off-Road and Customs Car Show! Nathan, alongside his father, Dan, spent the past few years meticulously restoring their family car, a 1957 Chevy Bel Air, transforming it into a stunning masterpiece. This project wasn't just about building a car; it was a journey that ignited Nathan's passion to become an automotive technician. His commitment and skill were evident in every detail of the restoration, capturing the essence of automotive craftsmanship. Nathan's victory is a testament to his hard work, dedication, and the strong bond with his father. We couldn't be prouder of Nathan and are excited to see where his passion and talents will take him in the automotive world! Be sure to ask him to share some pictures of the car to you! He loves to talk about it!

Exciting Upcoming Dates

- **Congressman Lloyd Smucker Visits:** August 2 at 9AM
- **Back to School Night:** August 28 at 5 PM
- **First Day of Tech Pathways:** September 3 at 11:30 AM
- **At-Home Study Days:** September 6 & 9, October 4, 10 & 11
